LAN Video Chatting App using P2P TCP

Rafik Hachana, Parth Kalkar, Igor Mpore

May 7, 2021

1 Introduction

2 The challenges

3 Technological stack

3.1 Python

3.1.1 OpenCV

3.1.2 PyAudio

3.1.3 MongoDB

4 Electron.js

5 Software architecture

5.1 The Electron UI

5.2 The Python P2P client

5.3 The integration

6 Optimizing TCP usage

6.1 Call initiation protocol

6.2 Sending Video

6.2.1 Adaptive video quality protocol

6.3 Sending Audio

6.4 Parallel TCP and multi-threading

6.4.1 Buffering and IPC

6.4.2 Performance comparison
